

NEUROPEPE Token Whitepaper

1. Introduction

NEUROPEPE is a meme-based utility token launched on the Solana blockchain, combining the cultural impact of meme tokens with the innovation of decentralized finance (DeFi). NEUROPEPE aims to attract a wide community of users by offering a fun, fast, and low-fee crypto experience.

2. Vision

To create a vibrant ecosystem where memes meet utility. NEUROPEPE aspires to be the go-to meme token on Solana, empowering its community through decentralized governance, creative engagement, and financial opportunities.

3. Tokenomics

Total Supply: 1,000,000,000 NEUROPEPE

Distribution:

- 50% Airdrop to community
- 20% Liquidity pool
- 15% Ecosystem and development
- 10% Marketing and partnerships
- 5% Team (locked for 6 months)

4. Key Features

- Solana-Based: Ultra-fast transactions with minimal fees.
- Community-Driven: DAO-based governance for major decisions.
- NFT Integration: Exclusive PEPE-style NFT drops.
- Staking: Earn NEUROPEPE through community staking pools.

NEUROPEPE Token Whitepaper

5. Roadmap

Q2 2025

- Token launch on Solana
- Initial airdrop campaign
- Launch official website and community channels

Q3 2025

- NFT collection drop
- Staking pool deployment
- Listings on decentralized exchanges (DEXs)

Q4 2025

- DAO governance activation
- Partnerships with other meme communities
- Mobile wallet integration

6. Security and Audits

NEUROPEPE will undergo community-led code reviews and open-source audits to ensure safety and trust.

Smart contracts will be deployed with upgradability and transparency.

7. Conclusion

NEUROPEPE is more than a meme. It's a movement to blend internet culture, financial tools, and community empowerment. Join the journey and shape the future of decentralized humor.
